# Departments

ATUSS offers a wide range of study programmes, from engineering and technologies to multimedia and design. Each of the five departments specializes in its area of studies, with a focus on skills development and professional growth.

## School of Electrical and Computer Engineering

- Audio and Video Technologies
- Automation and Vehicle Control Systems
- Environmental Engineering
- Electronics and Telecommunications
- Information Systems
- New Energy Technologies and
- Computer Science (New Computer Technologies and Computer Technique).

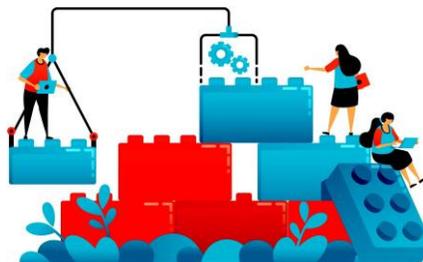

## School of Communication and Information Technologies

- Internet Technologies
- Postal and Logistics Systems
- Communication Technologies
- Banking and Business Informatics
- Network and Software Engineering

## School of Civil Engineering and Geodesy

- Civil Engineering
- Geodesy – Geomatics and Architecture

## School of Railroad Transport

- Railroad Transport
- Railroad Machine Engineering
- Electrical Engineering in Transport
- Commercial Business in Railroad Transport
- Public Urban and Industrial Transport

## Textile School of Design, Technology and Management

- Design of Textile and Outwear
- Textile Engineering
- Management in Textile Industry

# Methodology

ATUSS offers undergraduate and master studies, as well as recently-introduced dual education studies and short-cycle studies, currently being implemented in pilot stages of ongoing projects.

**Basic applied studies**

**3 years**

**180 ECTS**

**Master applied studies**

**2 years**

**120 ECTS**

**Total 5-year higher education**

**300 ECTS**

**Tutorials and lab-work  
in well-equipped facilities**

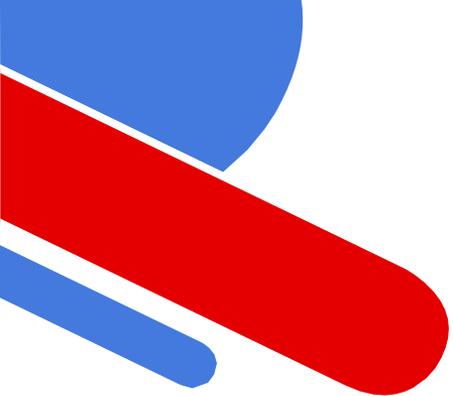

**Study programmes fit  
young employers' needs,  
tailored to the labor market**

**Internship in professional  
companies**

# Erasmus+ Accredited

Awarded with the Erasmus Charter for Higher Education 2014-2020\*

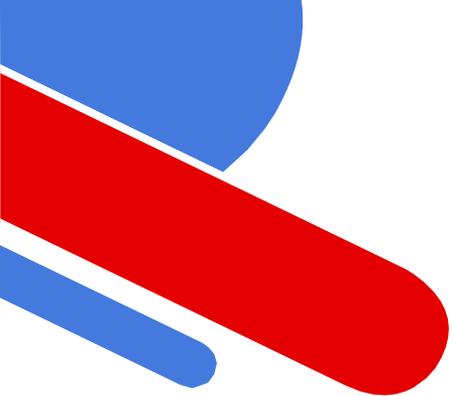

# Project References

For almost ten years now, ATUSS has taken active part in international cooperation through Erasmus+ and Tempus programmes.
